DIGITAL DESIGNER & FRONT-END DEVELOPER UX/UI · Strategy · Graphics

j.felipesatr@gmail.com · linkedin.com/in/salazarmedia · behance.net/salazarmedia · github.com/felipesatr

PROFILE — Designer with experience in digital media, UX design, web development, and visual identity. I combine creative and technical skills to create functional, polished digital experiences.

EXPERIENCE —

Nationwide Marketing Group | Web Designer & Developer / Team Lead
Mar 2024 – Present
Migrated 70+ websites from legacy platforms to a new CMS, preserving content integrity while improving publishing efficiency and on-site user experience. Built and optimized pages with HTML, CSS, JavaScript, UX/UI principles, and SEO, while coordinating delivery, training, performance feedback and communication across teams.

Industrias Galgo Global | Visual Designer & AI Strategist
Feb 2025 – May 2025
Led the Philaac S.A.S. rebrand, defining a new logo and visual identity system to reinforce brand values and consistency. Designed paint-product labels for clarity and shelf impact, then created and refined AI-assisted imagery and video for social media campaigns.

UNE Consultores de Seguros | Lead Designer
Jan 2024 – Mar 2024
Repositioned the brand through a new logo and visual language aligned to the company's strategy and objectives. Applied color, typography, and digital design principles to build a more current, cohesive brand presence within its competitive landscape.

PROJECTS —

Self-Taught Design: Personal Automobile
Senior Thesis · Aug 2023 – Dec 2023
Explored how holistic designers can learn a new design practice independently through automotive design. Delivered a polished exterior concept and documented process.

Raizeed
University Project · Jan 2022 – May 2022
Developed a social-design proposal for the Raizal community in Providencia, Colombia after Hurricane Iota, including tourism and community infrastructure concepts.
